

## CoachHelp1

### Step One:

- List all the people who attended the first coaching session

### Clinical Example:

- Which important village members attended the first coaching session?

#### THE VILLAGE

##### Step One:

- *Mom – Janet*
- *Boyfriend – John*
- *Joe (14) – Identified Client*
- *Joshua (12) – Brother*
- *Rachel (20) – Oldest Daughter*
- *Angie, mom's best friend*

*Mom, John, Joe and Joshua attended the first session as these are the people who live in the home. The oldest daughter currently lives out of town, but is often drug into the family conflicts via the telephone as mom calls her to complain about Joe and Joshua. She will be moving back to town in three weeks and will then be brought onto the bus as support for mom who admittedly struggles with consistency and overstatements in her parenting.*

*Angie is currently on vacation and cannot attend the first coaching session. She did, however, attend the intake and is willing to be a part of Joe's behavioral contract and to attend the 4th group and 3rd coaching session to show support for mom and John and also to participate in scripting any role she might have in the contract.*
